

BIO CITY CAMPUS

The perfect space for synergy between business and research.

Over 100,000 m² of lab/office space and land for development

38 biotech and biomed companies

4 neighboring research institutions

Details are available at www.biocity-campus.com/en

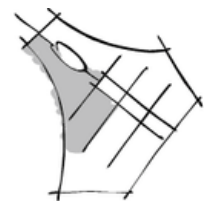

The BioCity Campus is located just a few minutes' walk from the center of Leipzig. It provides new perspectives and spaces for innovation, exclusively for companies in the biotech, medical technology, and life sciences industries. Start-ups and established stakeholders and research institutes alike will find more than 100,000 square meters of attractive lab and office spaces and land for development in this exclusive innovation park. Local industry stakeholders benefit from the expertise and modern infrastructure of neighboring research institutes as well as from the many potential partnerships with companies.

Synergy is a way of life here. BIO CITY LEIPZIG is the nucleus of the campus. It offers attractive rental terms, particularly for start-ups.

The employees of BIO CITY LEIPZIG assist and support tenants and partners on the campus with a wide range of concerns – including technical issues – and help them access local, national, and international networks.

We look forward to hearing from you and hope to welcome you as an innovative new partner on our campus very soon.
